

How to: Figurenotes Fingers

Using Figurenotes fingers you use your own piano, keyboard or xylophone to play Figurenotes Music at home! Here's a helpful guide of how to use Figurenotes fingers.

1. Download the Figurenotes Fingers pdf.
2. Print this pdf.
3. Cut out the Fingers, following the black lines. Ask an adult for help before doing this!
4. Find the C key.
 - a. First find the set of two black keys that are close together. Not the set of three!
 - b. Then find the white key to the left of the two black keys.
 - c. This is the C key.

5. Place the **Red** on the C note.
 - a. The **X-red** goes on the lowest sounding C. This is the C furthest to the left of the keyboard.
 - b. The **Square-red** goes next, after the X-green.
 - c. The **Circle-red** after, next to the Square-green
 - d. The **Triangle-red** last, after the Circle-green.
 - e. Use the picture of the keyboard below to help you!
6. Stick these in place using something you can later remove, for example bluetac.
7. Your keyboard should now look like this!

8. Now you are ready to play!
