Chords

The diagram illustrates the movement of the /ay/ diphthong through the vowel space. The top row shows the initial position of the tongue tip (indicated by a grey oval) and the final position (indicated by a red oval). The bottom row shows the corresponding vocal tract positions: Bel- (lax), le (near-high), Ma- (near-low), ma (high), bel- (near-low), le (near-high), Ma (near-low), ma (low), and ay (near-low). The movement is indicated by arrows pointing from the initial position to the final position.
